Recommendation Letter
For
Mr Ismail Ezzaki

Laureate of the 2018 promotion, **Mr. Ismail Ezzaki** is a serious and dynamic student. I had the opportunity to supervise him during the preparation of his graduation project. The results he has obtained are very satisfactory. In addition to his scientific capacities,

Ismail Ezzaki has good human qualities. The formation he acquired in fundamental physics studies was certainly a very favourable asset to allows him to land a master's degree.

He continues his studies in the second year of the Physics Master's degree in High Energy, Astronomy and Computational Physics at Faculty of Sciences Semlalia Cadi Ayyad University.

For these reasons, Ismail has my highest recommendation for his candidate

This recommendation letter is issued at the request of the person concerned, to serve the purpose for which it is intended.

Prof. Youssef BELKASSMI
Department of Physics
Polydisciplinary faculty of Ouarzazate
